

A better way to learn

Whether it's whole-group or small-group instruction, formative assessment, collaborative learning, or student-centered adaptive instruction, Mimio solutions help teachers put these strategies into action, easily and affordably.

Advanced technology with one goal. Create a better way to learn.

Mimio Interactive Displays

Different schools have different needs, so Mimio offers three interactive displays to choose from. All options feature their most advanced technology for exceptional performance and simplicity.

MimioTeach™ Interactive Whiteboard

Choose the MimioTeach™ interactive whiteboard if your school already uses regular dry erase boards and projectors.

Simply place the small MimioTeach bar on the dry erase boards you already have, push two buttons, and just like that – you've got a full-featured interactive whiteboard. Now you can spend less without getting less.

With **MimioTeach™** you can:

- Mount to your whiteboard magnetically-Easy to move to different classrooms or remove for safekeeping.
- Create engaging, student-centered, interactive lessons with the included MimioStudio classroom software.

- Designed to last for years of classroom use. MimioTeach stylus is a slender, ergonomic pen that:
- Lets you control the information on your computer from your whiteboard without wires.
- Recharges in the MimioTeach bar.

The **MimioHub™ wireless receiver** plugs into a USB port on your computer to enable automatic integration with the MimioTeach bar and stylus, MimioVote™ assessment and MimioCapture™ ink recorder.

MimioProjector™ Interactive Projector

Interactive teaching with the computers and whiteboards you already have...Now with finger touch technology!

You know your students live in a world of technology. So you know technology can help hold their attention. But you have a budget. If your classrooms already have dry erase boards but no projectors, the MimioProjector™ interactive projector lets you bring interactive teaching into your classrooms without breaking the bank. Just mount, plug into a computer, and bring your lessons, graphics and images to life on a conventional dry

erase board.

- Choose between dual-pen or finger touch models
- Create an interactive touch area as large as 100in. diagonal. Allows up to **10 single-point touches or 5 dual-point touches** with gestures.
- Ultra-short-throw design reduces shadows on the whiteboard.
- Even brighter and more vibrant images with 3100 lumens.
- Up to 5,000 hours between bulb replacements.

- Includes award-winning MimioStudio™ classroom software.

NEW MimioProjector™ Projector 3200LT Laser Ultra-Wide Projector

Large-scale touch-enabled collaboration, with the worry-free reliability of lasers

Imagine being able to have an interactive area in the classroom as wide as 11 feet! Our ultra-wide projector brings large-scale collaboration to classrooms that wouldn't be able to experience this due to limited budget or resources.

- Brings collaborative, 10-touch interactivity to classrooms, with images as wide as 11 feet!
- Also available as a pen only option.
- Easily work on the large, touch-enabled, interactive area individually or in small groups.
- Saves time and resources. There's no lamp to fail, no lamp to change. And there's a 20-year laser life span.
- A full-featured hardware and software solution.
- Comes with award-winning MimioStudio™ classroom software and the MimioMobile™ app.
- Software and app enable collaboration and assessment either at the front of room or on almost any student device.
- A solution that makes it easy to gauge and personalize student learning.
- Laser projection means no bulbs to change — ever.
- Analog and digital audio/video connections ensure compatibility with virtually any PC.
- Runs on Mac, Windows, and Linux.
- Ethernet LAN connectivity, for central management and control.

MimioDisplay™ Touch Display

Taking lessons to the next level.

With its remarkable LED illuminated screen, the MimioDisplay™ touch display helps you deliver great instruction and engage your students in a more collaborative learning experience. Multiple students can work together on the large touchscreen display at the front of the room. NOW choose from the HD 55", 65", 70", **NEW 75" 4K, or NEW 84" 4K models!** You get all the features of a touch-driven interactive whiteboard with the simplicity and elegance of a state-of-the-art, high-definition (HD) or ultra-high definition (4K) LCD display.

- The display's huge size and LED backlighting make your lessons more visually striking and memorable, even in large classrooms.
- Up to **ten single-point touch users or five dual-touch and gestures users can work simultaneously** with Touch 360° interactivity, driving collaborative learning.
- Styli and fingers can be used in any combination, for quick and easy interactivity.
- Full-featured solution includes MimioStudio™ classroom software, to easily create and deliver engaging lessons.
- The high-definition interactive display replaces a separate interactive whiteboard, projector, and speakers – freeing up valuable classroom space.
- Complete integration with other MimioClassroom™ products, including our MimioMobile™ collaboration and assessment app.
- The low-glare and low-friction glass surface makes this display easy to see and provides a smooth touch experience.

MimioMobile Application

Collaboration. Assessment. Easy.

Get the most out of the mobile devices* you already have with the MimioMobile™ application. A single MimioMobile license for a teacher's classroom computer lets every student with a mobile device* interact with the lesson displayed on the interactive whiteboard. The MimioMobile app lets multiple students simultaneously contribute to the learning environment. Teachers simply link the MimioMobile app to their MimioStudio™ classroom software, and several devices can be used together. Learn more about the use of mobile devices in education, download Mimio's InfoGraphic [Education is Going Mobile](#).

** MimioMobile app supports iPad 2, iPad 3, iPad 4, iPad mini devices, iPhones (4th generation and above), iPod touch (4th Generation and above) and Android tablets 3.0 (Honeycomb) or higher. Upgrades are included with your annual license.*

MimioVote Assessment

What if your assessment tools could accurately measure student understanding on the spot, with maximum class participation?

Why the **MimioVote™ assessment** does it better for you:

- Track progress through instant feedback as well as scores tallied over time.
- Download student results into spreadsheets and lesson plans, for clear achievement records.
- Place handsets anywhere in the storage tray to renumber automatically.
- Ensure student accuracy, since only appropriate answer buttons light up.
- Choose teacher-led or self-paced testing.
- Count on excellent testing options for all grades.
- Easily import standard tests and publisher's content.
- Take advantage of the system's compatibility with Microsoft PowerPoint.
- Each handset has a Lithium-Ion battery which recharges when placed in storage tray.

MimioVote assessment is portable, expandable, and convenient.

[Email GDI to learn more.](#) | [Download Datasheet](#)

MimioView Document Camera

What if your document camera let you easily add pictures or live video to your interactive whiteboard lessons?

The **MimioView™ document camera** is fully integrated with MimioStudio™ classroom software and the MimioTeach™ interactive whiteboard, making it easier than ever to capture images and present them in your lessons.

- Enjoy effortless setup – just connect the camera to a USB port on your computer and you're ready to capture images.
- Annotate images, turn them into files or save them for future use.
- Give presentations for students while they remain in their seats.

Take pictures or video with the MimioView camera.

- Capture dimensional objects and flat documents.
- Align documents easily.
- Zoom in close.
- Autofocus by pushing a single button.

[Email GDI to learn more.](#) | [Download Datasheet](#)

MimioCapture™ Ink Recorder.

What if you could use dry erase markers on any whiteboard, and automatically save what you write – in color – to share and edit later?

The **MimioCapture™ ink recorder** is the perfect accessory to MimioTeach technology. It allows you to save whiteboard notes and drawings to your computer as you teach, so your students are free to pay more attention and participate fully in class.

MimioPad Wireless Pen Tablet.

More collaborative learning. More classroom control.

Teachers rejoice! With the new MimioPad™ wireless pen tablet you can break free and control your interactive whiteboard from anywhere in the classroom – front, sides, or rear. Up to nine tablets can be simultaneously viewed and controlled on the interactive classroom display at the front of the room. It's collaborative learning, from front row to last.
